Introducing

 Debi**Check**

To help **reduce invalid debit orders** being processed to your account, all the banks in South Africa, are introducing **DebiCheck**.

DebiCheck will allow you to approve a debit order via USSD on your cellphone, before the money is taken out of your account. This will stop debit orders being taken off your account that you did not approve.

To help understand DebiCheck better, speak to a ubank consultant or go to **[www.debicheck.co.za](http://www.debicheck.co.za)** for more information.
